Positive about UK remaining in the EU

## Join our **positive campaign**

- **We must act now to Remain – by far the best option for UK**
- Protect our **rights, freedoms, prosperity & place** in the world
- The EUref was legally just advisory & its 'result' can't be considered a 'will' or valid as many people voted Leave purely as **protest or anti-establishment** votes or based on **lies & pledges** the Leave campaigns knew were false/impossible + minds change
- And evidence is now overwhelming that exit would be a complete **disaster for UK; our economy & status** have already plummeted, while prices rise. **Exit is NOT in the UK's interest:** colossal costs to leave us isolated and much worse off
- **We must stop this destruction now** & return to **prosperity & being a leader in the EU & the world** #TakeBackControl
- Campaigning is democratic, caring for UK & the future is patriotic
- Act now, tell MPs & leaders, do all you can to **#Remain #SaveUK**
